a selection of works

from

AN EMBROIDERER'S EYE

the *Diana Springall* collection

The Embroiderers' Guild brings to *Fashion, Embroidery & Stitch* this exciting exhibition from **Diana Springall**, one of the most well known of all British Textile Artists.

Diana Springall's Collection 'An Embroiderers Eye' represents work from several decades of modern embroideries that did not receive mainstream attention at the time of their creation. Today, the works act as reminders of a number of individuals who chose, and have continued, to work with materials and ideas that communicate a range of emotions and themes. This exhibition and accompanying book celebrate some of the very best of modern British embroidery.
