FIMO WORKSHOPS AT HOBBYCRAFTS

Following the success of last year's events, STAEDTLER is hosting a series of free FIMO workshops at Hobbycrafts again this year, 3 - 6 November 2011.

Bonnie McGough, the leading polymer clay artist, will take five 45 minute 'Have a go' sessions on each of the four days of the show. The workshops will alternate throughout the exhibition highlighting FIMO Accessories' Bead roller and brand new products from the range, including the new Princess design in the 'Kits for Kids' collection.

Open to all visitors to the show, including children over 8 years of age, the workshops are completely free to attend and may be booked at the **workshop area J09** on a first come first served basis.

All materials and equipment for the workshops will be provided and visitors will be able to take home whatever they have made during the session. They will also be able to take away free projects sheets to make more FIMO creations at home.

At the show, STAEDTLER will partner Gadsby's – www.artshopper.co.uk – to market a selection of products from the Hobby and Creative range, such as FIMO Soft polymer modelling clay, 'Kits for Kids', air drying clays, creative accessories and push moulds. There will be a display of STAEDTLER products for sale on Gadsby's stand (E16), where a STAEDTLER representative will be in attendance to assist with enquiries. Workshop visitors will also be able to take advantage of a discount when purchasing STAEDTLER items from the stand.

STAEDTLER's Hobby and Creative range offers both amateurs and experienced crafters the opportunity to create perfect works of art for gifts or personal use. The various kits on offer make ideal Christmas gifts for adults and children alike.

Running daily Thursday 3 – Sunday 6 November 2011
